Of Local Interest

NEW NOTARY.—Charles J. McElroy of Phoenix was yesterday appointed a notary public.

LEFT FOR HOME.—George J. Stoneman, a member of the Arizona Railway commission, left last night for his home in Globe, after a few days in Phoenix on official business.

INSPECTOR DUTTON BACK.—Postoffice Inspector C. F. Dutton has returned from a six weeks visit on the Atlantic seaboard, devoted to both business and pleasure. He went to Washington first on official business and to secure inspiration from the official fountain of it and then he went down to the old home in Virginia for a vacation, which was thoroughly enjoyed.

DR. AITON HOME.—Dr. R. A. Aiton has returned from his summer vacation, which was devoted to touring the towns along the Santa Fe in the interest of his vitazone mineral water. He says that he found northern Arizona in a generally flourishing condition and Kingman particularly lively. The recent sale of the Gold Road mine has livened things up and there is general mining activity throughout Mohave county.

CONVERSE WHILE UNDER SENTENCE TO DEATH AT JUAREZ FOUND A BRIDE.

San Bernardino, Aug. 16.—A romance of the Mexican revolution was begun in jail at Juarez, just before the siege of the city, had a happy culmination here tonight when Lawrence Converse, of Glendora, California, and Miss Amelia Spencer, of El Paso, were married. Converse is one of the American youths captured by the regulars and sentenced to death as an insurgent, but was later released.

He met his bride while in the Juarez jail. She brought him dainties, and fell in love with him. After his return home Converse sent for her, slipped away to this city, and they were married by a priest tonight.

HARRIMAN HOLDINGS.

Denial of Rumor that They are Being Sold.

New York, Aug. 16.—Robert S. Lovett, president of the Union Pacific, and Charles A. Peabody, director, united in a statement that the report that Mrs. E. H. Harriman was liquidating her Union Pacific holdings was absolutely untrue. She is taking no part whatever in the present movement in the stock market.

RECORD TRANSATLANTIC RUN.

New York, Aug. 16.—The sea giant Olympic docked today bringing a new record to port, having clipped 46 minutes from her best previous record, making the trip from Queenstown in 5 days, 12 hours and 20 minutes.

BRIEF IN EXPRESS CASE FORWARDED.

The Arizona Railway commission yesterday forwarded to the interstate commerce commission in Washington, its brief prepared in the case of its complaint against Wells Fargo & Co., in connection with which a hearing was held here June 26 and another in New York on July 17. Commissioner Stoneman of Globe has been here several days in its final preparation.

GOING FISHING.—Claude Jones of the Arizona Cleaning Works, and Sam Shirley of the Buckeye Lumber Co., left yesterday for a two weeks mountain outing first going to Flagstaff and the Grand Canyon, then to the cattle ranch of J. J. Bishop where Mr. Jones' sister, Mrs. Bishop, has planned a fishing trip to Trout creek. Only last week, Mrs. Bishop's reward for one day's fishing was 105 real fish. That's going some.

EXPECTS SINEWS OF WAR—W. W. Powell of interstate fame as a forger and negotiator of fictitious checks who was arrested for raising money on a forged check cashed at the Hoffman saloon, was before Justice Parker yesterday for arraignment. Powell asked that his preliminary trial be deferred for a week. He said that he had written to his grandmother for money to assist him in his defense and he did not expect it for a week. He declined to say where his grandmother lived or what her name was.

CLIMBING THE LADDER.—It has been but a few years since Frank B. Mayers, a graduate of the Phoenix high school, left Phoenix for Nevada, with his parents and those years have passed very rapidly, but Frank has been making good use of them. He early devoted himself to the law and now has a very pleasing practice for a young man in the city of Reno. Next he got married and that incident was followed by election to the legislature that met last winter. Now he has added another degree in the college of life. A letter to a Phoenix friend recites that he is the father of a fine girl baby and that all are doing finely.

THE Y. M. C. A. BOOSTERS CLUB.—The Boosters Club of the Y. M. C. A. will hold the first of a series of socials on the roof garden next Tuesday evening, August 22nd. Invitations will be given to all the members who will distribute them among friends who will possibly be interested in the work the association is doing. As there are a number of people in Phoenix who do not realize the benefit to be derived from such an institution the Boosters Club has devised this plan of acquainting the public with the society and its methods of doing business. No admission will be charged and a nice program has been provided with plenty of refreshments.

S. H. MITCHELL HOME.—S. H. Mitchell, manager of the Phoenix city railway, returned home yesterday from what is supposed to have been a joyous outing in California, but from the way he was creeping about the street with a cane one might easily imagine he had been playing the role of the white man's hope in a controversy with John Arthur Johnson. Mr. Mitchell says that he was enjoying the surf a few days ago when he was suddenly seized with a good old fashioned "crick in the back" that doubled him up like green apples used to do in the long ago. He was unable to walk again until last Monday and on Tuesday he took the train for home. He improved rapidly yesterday in the delightfully mild summer climate of Phoenix.

WILL BE NO DELAY.—Contrary to fears in some quarters there will be no delay in the work of street paving by the absence of the necessary experts. It has been stated that Warren Brothers who own the patents on the bitulithic paving have announced that they would not permit the use of that material unless their personal representative was on hand to inspect the work, and it has also been stated that he might be delayed in reaching here. Word was received yesterday that he will arrive on the 20th and the work may proceed immediately thereafter. The track laying expert of the city railway company will also be here today so there will be no delay of new rails through the portion of the district and the laying of that portion of the pavement which the company has to put down along its tracks.
